CREATE CHANGE

Studio 2 – Interaction Design DECO2850 / DECO7285

Week 6: Prototyping

Why are we doing this?

Steps:

1. Form a Team and Define a Project
   - No technology/app at this stage
2. Plan a study to investigate the problem fur
   - E.g. “How do UQ’s International students manage their diet?”
     - Develop a suit of methods (interviews, observations, etc.) to find answer to the question
     - Engage with potential users and collect data
3. Analyse data and develop initial ideas for design
4. Develop prototype – Iteration 1
5. Engage with same users and trial/ evaluate/ assess the prototype
6. Develop final prototype – Iteration 2

Week	Topic	Studio Activity
1. 01/08/25	Introduction	Introduction to the Course, Class overview, organisation, assessments, and project selection.
		Design Exercise
2. 08/08/25	Team formation	Speed Dating / Project Management
		Studio: Project idea brainstorming
3. 15/08/25	Understanding People	Methods: Interviews, Ethnography, Object-based Methods, Online Ethnography, etc.
		Studio
4. 22/08/25	Ethics & Values	Ethics, Values and Technology
		Studio
5. 29/08/25	Data Analysis	Qualitative Data Analysis
		Activity: Data Analysis
6. 05/09/25	Prototyping & Interactions	Prototyping Methods, API & Tangibles
		Activity: Prototyping
7. 12/09/25	UX	User Experience Design
		Studio
8. 19/09/25	Assessment 2: Milestone 1	Design Exhibit 1
9 26/09/25	User Enactment	Wizard of Oz, Role Playing, Bodystorming, Simulated Environments (e.g. HawkEye)
		Activity: User Enactment
Semester Break		
10. 10/10/25	Evaluation	Evaluation methods
		Studio
11. 17/10/25	Field Trials	Field trial methods
		Studio
12. 24/10/25	Assessment 3	Oral Examination in studio
13.	Assessment 2:	Design Exhibit 2

Today’s Topic

- 12:00 to 12:30 | Prototyping & Interaction Techniques
- 12:30 to 1:00 | Demo of various applications
- 1:00 to 1:15 | Break
- 1:15 to 3:50 | Studio Time: Start making your prototypes

Outcome:

You should have a clear idea about your prototype and know what type of ‘dynamic’ features you will show in week 8

Prototyping

A rapid and iterative process

explore design ideas at the early stages

in different forms and fidelities

communicate these ideas with peers

get quick feedback (from peers and users)

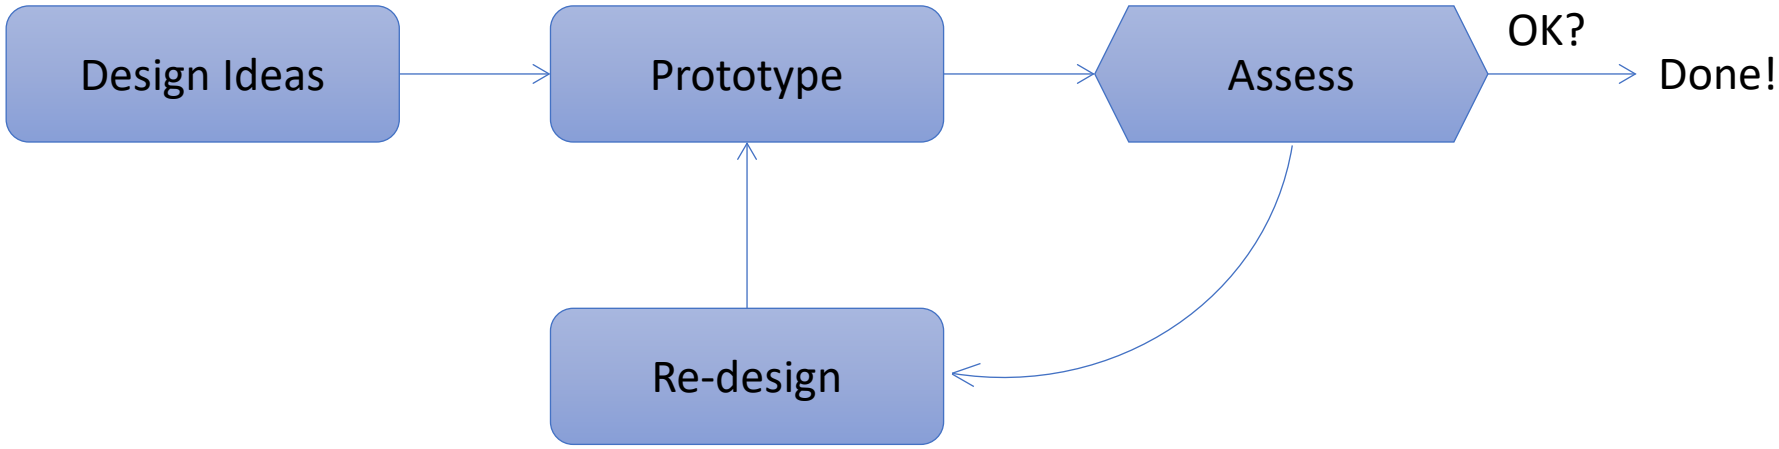

a reflective practice.

Prototyping

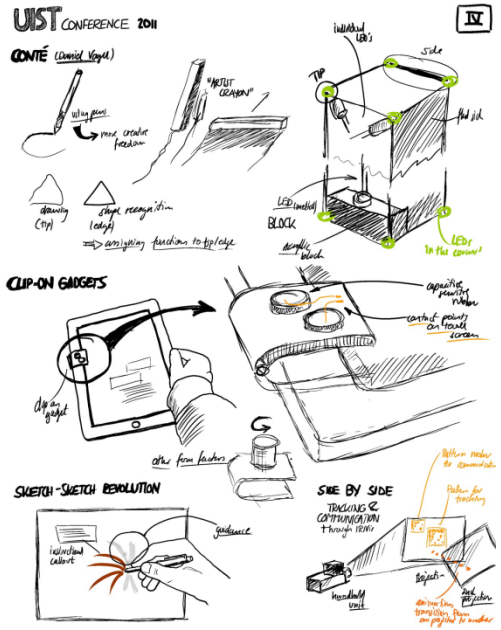

Why Prototyping?

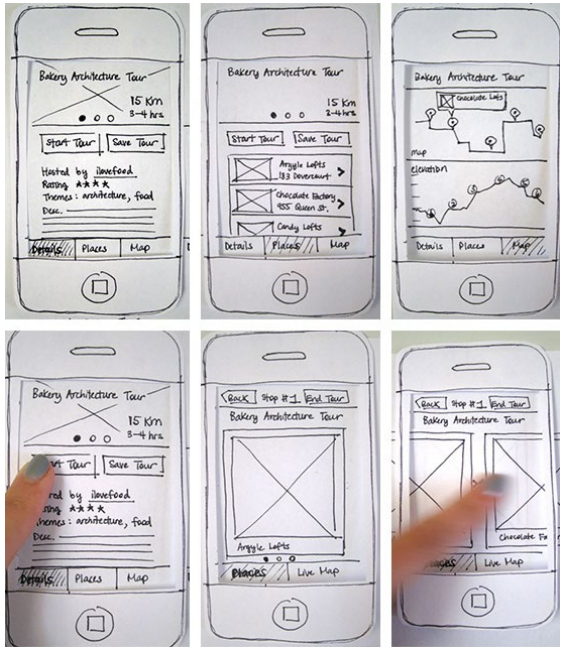

- You can’t get the design right the first time.

- You will not get things ‘perfect’, but ‘good enough’ is what you should be looking for.

Forms of Prototypes

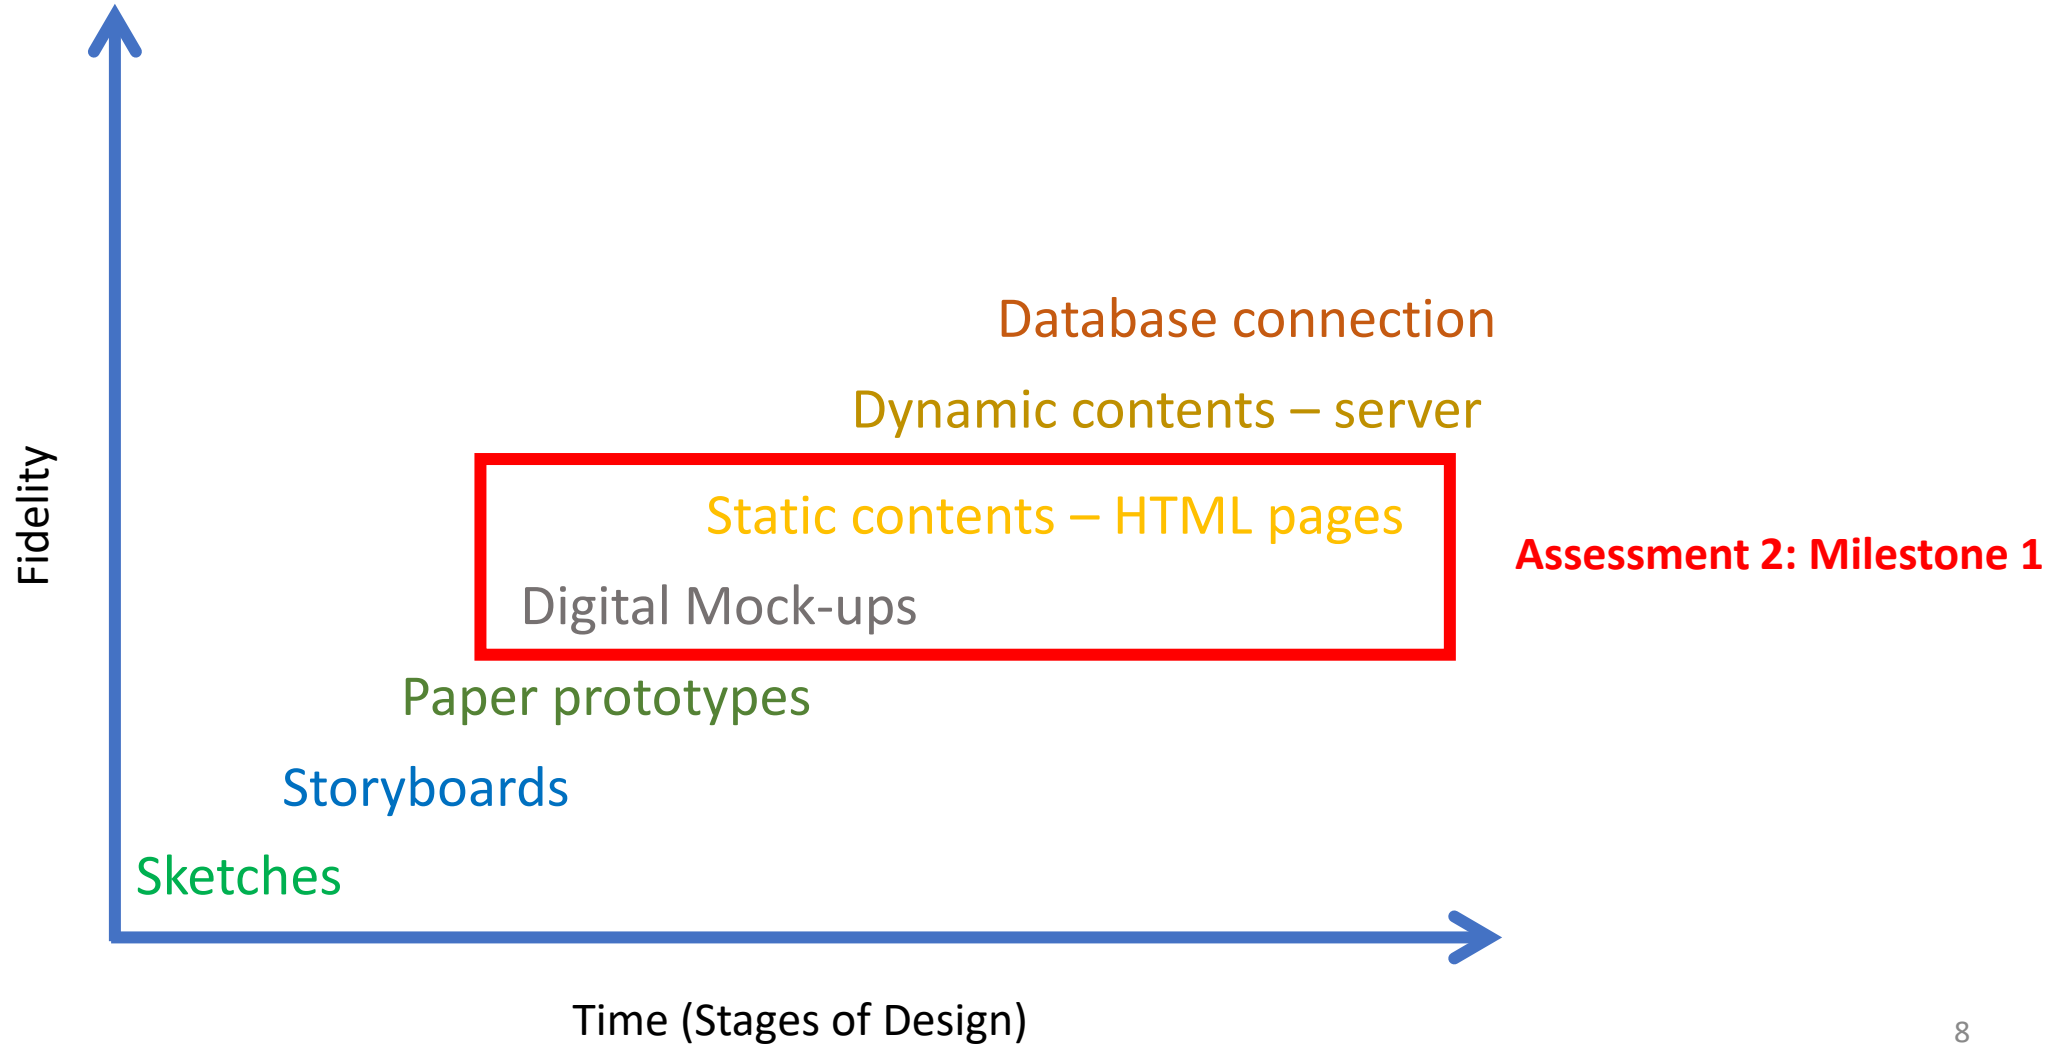

Prototypes

Assessment 2: Milestone 1

Week 8

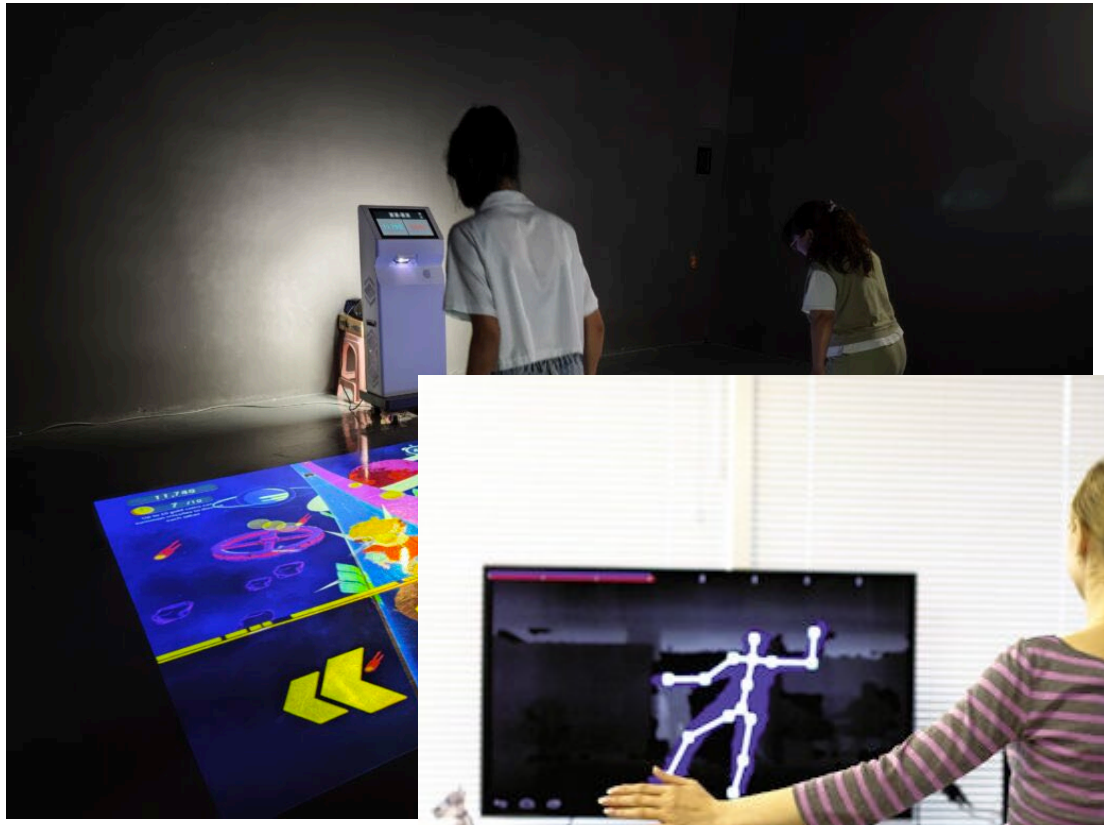

Team #3:
KEN-STRUCTING A BETTER FUTURE
RESEARCH
Landing Homepage

MOJO DOJO CASA HOUSE HOMIES

Demo Session

- Figma
- Makey Makey
- Yo-Yo Machines
- Arduino
- M5stack: https://m5stack.com/

Embodied Interaction

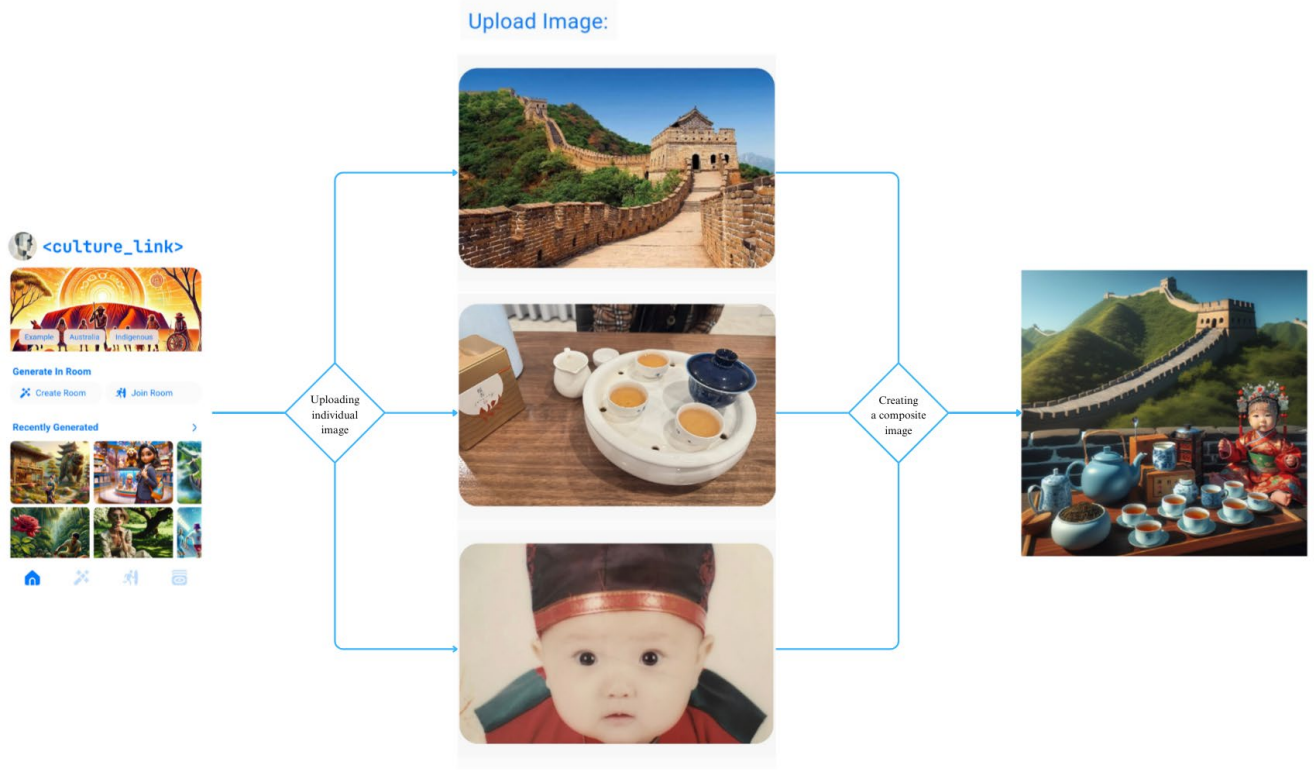

Playful/Ludic Interactions

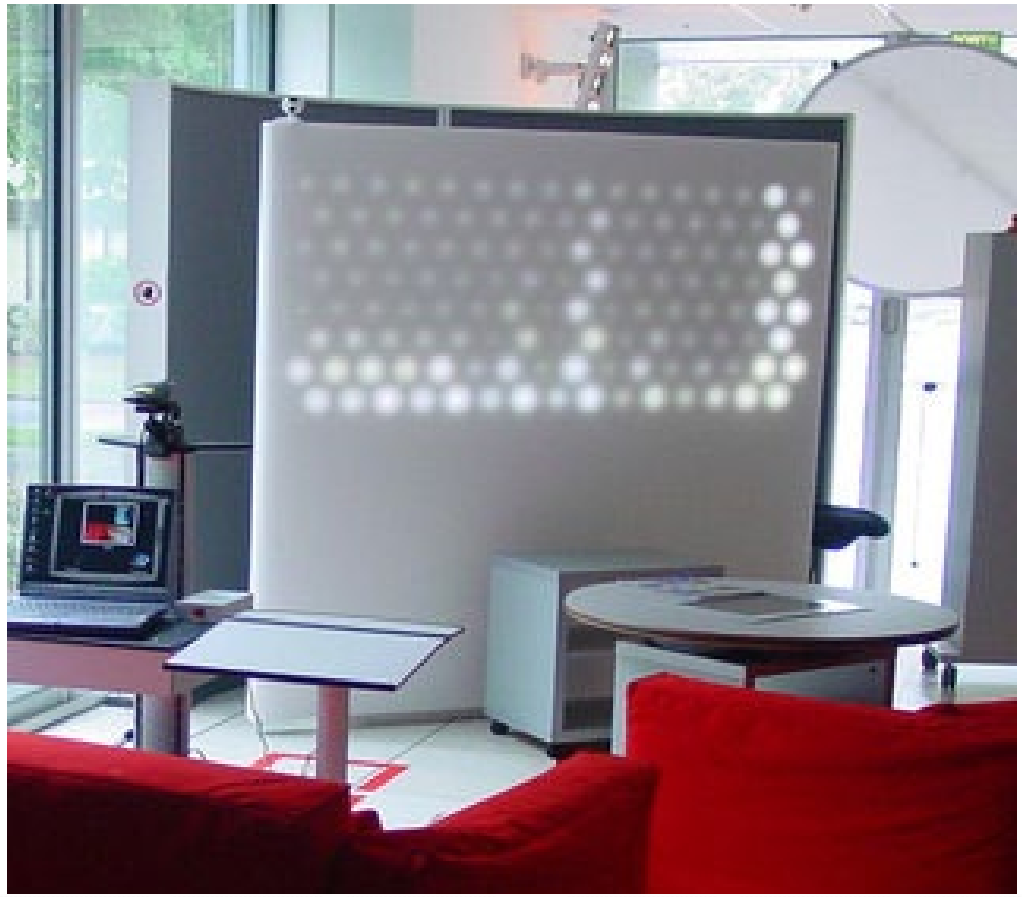

Voice-based Interaction

Calm Technologies / Peripheral Interactions

https://www.youtube.com/watch?v=ND6fsHR6M_k

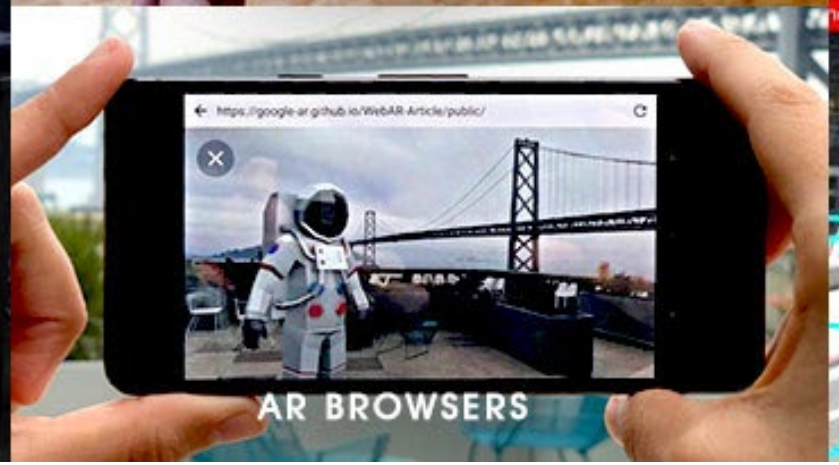

Tangible Interaction

Extended-Reality Interactions

COFFEE
BREAK

Prototyping Activity

Develop the following for your own projects

- Brainstorm based on
  - your data analysis, interaction techniques and needs of your participants
- Main design idea in the form of a sketch
- A storyboard
- Start building your “dynamic” prototype
